Curriculum Vitae

SRUSHTI PARSHURAM BANSODE
srushti.bansode@capgemini.com

Personal Details .

Name	Srushti Parshuram Bansode
Designation	Software Analyst/A3
Birth Date	23/02/2002
Residence	Mumbai
Nationality	Indian
Marital Status	Single
Gender	Female
Passport Details	NA

Profile .

. Aim to work in the project which gives a scope to enhance my technical skills.
Keep to learn new things.
I have been Designed as Analyst/Software Associate and undergone Learning And Development Training in Bigdata in July 2022.

Competencies .

Languages	Python(Basic), SQL,Scala
Key Areas	**Bigdata,ETL,Hadoop**
Database	Oracle,MYSQL
Operating Systems	Windows,Unix

Languages .

Languages	Speak	Read	Write
English	Intermediate	Fluent	Fluent
Hindi	Fluent	Fluent	Fluent
Marathi	Fluent	Fluent	Fluent

Experience: Nordea Project

Project Name	Scala Project (MDP TRF2)
Client Name	NORDEA
ROLE	Junior Developer
Role Performed	Data Lineage validation, modified the code according to requirements
Technology/Tools used in Project	Scala, Bitbucket,Jira,Jenkins,Helix,IntelliJ idea
Description	Tagged in a Nordea Project working in a TRF2 MDP Team
Tasks performed	• Worked on the Investigation and ND Integration branch feature, implementing logic to restrict ND-specific job execution based on the provided ingest date, ensuring accurate and timely data processing. • Developed and automated the monthly flow for the NPV feature, streamlining data operations and improving efficiency. • Refactored and removed attributes from code in accordance with evolving business requirements, enhancing system maintainability and performance. • Worked on data lineage investigation and validation, ensuring traceability and integrity across data transformations. • Verified the accuracy of SMX document mappings, validating that documents were correctly matched and aligned with expected standards.

Curriculum Vitae

Experience

Project Name1	Data Splitter Analysis	
Client	BU	
Role	Bigdata Training Project(Sprint)	
Roles performed	Analyzed the data and splitted it into cyclic format in 3 different files.	
Technology used in project	Oracle Database	Talend
	Spark	Hadoop
	Hive	
Description	It aims to split the data in cyclic format in 3 different files. It needs to analyze data in file and transfers it into hive tables to filter the data in talend into cyclic format	

Education

Examination	Year	CGPA%	Institution
Bsc.IT	2022	8.38	B.N.Bandodkar college of science(Mumbai University)
HSC	2019	58.92%	V.G.Vaze college of arts, commerce & science
SSC	2017	84.20%	Wamanrao muranjan madhyamik vidyalaya

INTERNAL PROJECT:

Project Name	MEDICAL APPOINTMENT PREDICTION
Client Name	Kaustubh Darekar(Genz Arena)
Role	Developer
Roles Performed	Predicted Show,No-show of medical Appointment Using Catboost and XGBoost Algorithm
Technology used in Project	Python And Machine Learning
Description	It aims to predict show,Noshow of medical Appointment in hospitals to utilize services approximately and manage Hospital

Hackathon:

Project Name	Process Automation
Client Name	Capgemini
Role	Developer
Role Performed	Automated the process of Data cleaning to maintain and provide high Quality of Data.
Technology used in project	Python,Streamlit,PostgreSQL
Description	This project involves the creation of a data analysis and cleaning application using Streamlit, a Python library. The application addresses the challenges of big data by providing tools for data cleaning and anomaly detection. It's divided into three tabs: Table Information, Data Cleaning, and Anomaly Detection, each handling specific aspects of the process. A standout feature is the real-time updating sidebar that displays data changes, making the process transparent. This application simplifies and enhances data cleaning, thereby improving data analysis quality

Curriculum Vitae

Certifications

CERTIFICATIONS	• **Structured Query Language(SQL)** • **SQL for Data Science** • **Python for Beginners** • **Ocean Certification(Bigdata Grade A Level 1)** • **Agile Software Development** • **DP-203 Microsoft Certified Azure Data Engineer**
